

April 2018

## INLAND POWER REBATE NEWS

### PTCS mobile site is up:

FINALLY! PTCS has a mobile friendly site you can access to input your PTCS tests. You can do your air-flow test paperless from the job site. Our suggestion is to collect your testing numbers and input your PASSING test data all at once. Log in at <https://ptsc.bpa.gov>

### Get your PTCS submissions in SOON:

The Memorandum agreement between Inland Power and PTCS contractors allows 30 days between installation and test submissions; some submissions are coming in later. Late submissions will be accepted until the end of May 2018, thereafter payment for late test submission may be denied. Please get them in promptly!
