

ELECTRICAL CONTINUING EDUCATION CLASS REGISTRATION!

Control Circuits for Electrical Trainees, Electricians, and Administrators

May 4th & 6th, 2021 from 5pm-9pm both nights

Course # WA2019-640

Association Members \$99.00 Non Members \$120.00

Non-refundable sessions for no-shows due to limited seating & growing wait lists.

FACE COVERINGS REQUIRED AT ALL TIMES IN THE FACILITY AND IN CLASS!

This course will provide a basic understanding of control circuits and how they apply to equipment operation, how to read and interpret ladder diagrams and apply them to troubleshooting problems. Learn the effects of resistance and distance to the selection and application of such circuits and how to make adjustments as necessary to deliver the voltage and amperes required to operate the equipment. As well as consideration of fire rated structural elements and permissible protection for control circuits allowed in the codes

This session will be basic classroom "social distance style" within our facility at 204 E. Nora Ave, Spokane, WA.

Please fill out your information and email to candace@inwhvac.org fax to 509-747-8845 or call HVAC office to register at 509-747-8810. See our website at www.inwhvac.org for more information.

Name _____ Electrical Card # _____
